NET ONE GALLON (3.78 L)

This unique product, the result of the latest developments in concentrate technology, is designed to be easily blended into a highly concentrated suspension of bacterial spores. No special equipment, complicated multi-ingredient additions or extensive mixing times required! The diluted product provides an attractive alternative to costly deodorants and ineffective odor-masking agents. These special bacterial cultures do more than just cover odors - they eliminate the source of the odor. Natural enzymes-producing bacteria consume organic waste to eliminate malodor. They consume organic matter on most kitchen and bathroom surfaces, toilets, urinals, rugs and carpets. Destroy the source of all odors the natural way!

Directions: TO FORMULATE INTO A HIGH COUNT BACTERIAL DIGESTANT. Dilute 5 gallons (19.1 liters) of this concentrate with 50 gallons (189 liters) of unsoftened water to make 55 gallons (208 liters) of ready to use product. The finished product will possess a bacterial content of 80,000,000 colonies per milliliter minimum. Blend well and package immediately.

TO USE DILUTED PRODUCT:

TO CONTROL SURFACE ODORS: Dilute 1:1 with lukewarm tap water. Spray a heavy mist to wet surfaces and allow to eliminate odors naturally.

CARPETS AND UPHOLSTERY: Remove as much soil as possible. Dilute the diluted product 1:1 with lukewarm tap water. Spray to wet fibers thoroughly. Brush liquid into material. Lay a damp towel over the area to keep it moist for at least 24 hours. Severe odors may require daily treatment for up to 10 days.

USE IN PLUMBING: Treat drains with dosages varying from 2 to 8 ounces (60 to 240 mls.) per week to keep them free-flowing and fresh smelling. NOTE: Do not flush with hot water or use bleach disinfectant within 24 hours of product addition.

CAUTION

Do not take internally, If swallowed, give person several glasses of water and induce vomiting. Call a physician immediately. In case of accidental eye contact, flush with large amounts of water for at least 15 minutes. If irritation develops, obtain medical attention. Do not allow product to come in contact with a flesh wound. In case of contact, wash immediately with water.

Keep out of the reach of children

Este extraordinario producto, es el resultado del último desarrollo en tecnología concentrada, esta diseñado para concentrarse en suspender altamente concentrador de cuerpos bacteriales.

¡No se requiere equipo especial, adicionar de multi-ingredientes complicados o' extenso tiempo de mezclado! Este producto provee una alternativa atractiva al alto costo de desodorantes y agentes inefectivos que solo cubren el mal olor. Estas culturas especiales de bacterias hacen mas que solo cubrir los malos olores - ella elimina el origen de los olores. Las enzimas naturales que producen bacteria consumen desechos orgánicos para eliminar los malos olores.

Direcciones: PARA FORMULAR EN UNA CANTIDAD ALTA DE BACTERIA DIGESTIVA.

Diluya 5 galones (19.1 litros) de este concentrado con 50 galones (189 litros) de agua para hacer 55 galones (208 litros) de este producto. Este producto terminado tendrá una cantidad de 800,000,000 de colonias bacteriales por milímetro mínimo. Mézclelo bien y empáquele inmediatamente.

PARA USAR EL PRODUCTO DILUIDO:

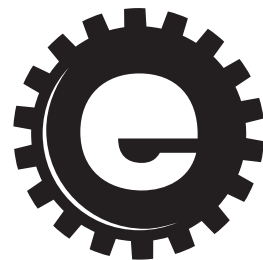

Para controlar los olores de la superficie: Diluya 1:1 con agua de la llave. Rocíe bastante que moje la superficie y deje que los olores sean eliminados naturalmente.

Alfombras y muebles: Remueva toda la tierra que sea posible. Rocíe para que moje todas las fibras. Cepilla el líquido en el material. Tienda una toalla sobre el área que mojó para mantenerla húmeda por lo menos 24 horas. Olores muy severos pueden requerir tratamiento diario hasta por 10 días.

Para uso en plomería: Trate el drenaje con dosis que varíen de 2 a 8 onzas (60 a 240 mls.) por semana para mantenerlas libres y fluyentes y con un olor fresco. NOTA: No deje correr agua caliente o' use cloro desinfectante en menos de 24 horas de haberlo agregado.

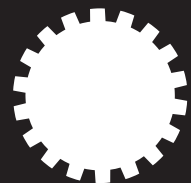

Precaución:

No lo tome internamente, si se traga de la persona varios vasos de agua e induzca al vomito. Llame al medico inmediatamente. En caso de contacto accidental con los ojos, lávese a chorro con grandes cantidades de agua por lo menos por 15 minutos. Si desorja irritación, obtenga atención médica. No permita que el producto tenga contacto con heridas abiertas. En caso de contacto lavase inmediatamente con agua. **Mantengalo fuera del alcance de los niños.**
